

# Continence Assessment Form and Care Plan

RESIDENT ID

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Refer to "Education Guide" for further information on assessment cues and care options

## SECTION A: Toileting ability, Cognitive skills & Mobility

### Best practice recommendations

- Encourage residents to participate as much as possible in toileting activities to remain optimal mobility and independence
- Consider each residents personal preferences for continence care

Assessment Cues <i>(tick appropriate response)</i>	Care Options <i>(tick appropriate care option)</i>
<p><b>1. Does the resident know when to go to the toilet?</b></p> <p><input type="checkbox"/> Yes <input type="checkbox"/> Sometimes <input type="checkbox"/> No</p>	<p><b>If sometimes or no:</b></p> <ul style="list-style-type: none"> <li>■ Identify behaviours showing that the resident may need to go to the toilet (eg restlessness) <i>(List possible cues)</i> _____</li> </ul> <p><input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to go to the toilet at <input type="checkbox"/> fixed times    <input type="checkbox"/> individualised times</p>
<p><b>2. Can the resident tell you where the toilet is?</b></p> <p><input type="checkbox"/> Yes <input type="checkbox"/> Sometimes <input type="checkbox"/> No</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Show/remind the resident where the toilet is <input type="checkbox"/> Ensure toilet is easy to identify <input type="checkbox"/> Leave the toilet light on</p>
<p><b>3. Can the resident walk to the toilet independently?</b></p> <p><input type="checkbox"/> Yes, independently <input type="checkbox"/> Sometimes <input type="checkbox"/> No, requires supervision <input type="checkbox"/> No, requires physical assistance <input type="checkbox"/> No, requires lifting equipment <input type="checkbox"/> N/A, unable to use toilet</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Place the resident close to the toilets</p> <ul style="list-style-type: none"> <li>■ Place the following ambulation aids close to the resident <ul style="list-style-type: none"> <li><input type="checkbox"/> Wheely frame    <input type="checkbox"/> Pick up frame    <input type="checkbox"/> Gutter frame    <input type="checkbox"/> Walking stick    <input type="checkbox"/> Wheel chair</li> <li><input type="checkbox"/> Other _____</li> </ul> </li> </ul> <p><input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to walk to the toilet</p> <ul style="list-style-type: none"> <li>■ If physical assistance is required, provide: <ul style="list-style-type: none"> <li><input type="checkbox"/> 1 staff member    <input type="checkbox"/> 2 staff members    <input type="checkbox"/> Lifting equipment    <input type="checkbox"/> Other _____</li> </ul> </li> </ul>
<p><b>4. Can the resident get on and get off the toilet independently?</b></p> <p><input type="checkbox"/> Yes, independently <input type="checkbox"/> Sometimes <input type="checkbox"/> No, requires supervision <input type="checkbox"/> No, requires physical assistance <input type="checkbox"/> No, requires lifting equipment <input type="checkbox"/> N/A, unable to use toilet</p>	<p><b>If sometimes or no:</b></p> <ul style="list-style-type: none"> <li>■ Encourage the resident to use the following assistive devices <ul style="list-style-type: none"> <li><input type="checkbox"/> Handrails    <input type="checkbox"/> An over the toilet seat frame    <input type="checkbox"/> A donut    <input type="checkbox"/> Other _____</li> <li><input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to get on and off toilet</li> </ul> </li> <li>■ If physical assistance is required, provide: <ul style="list-style-type: none"> <li><input type="checkbox"/> 1 staff member    <input type="checkbox"/> 2 staff members    <input type="checkbox"/> Lifting equipment    <input type="checkbox"/> Other _____</li> </ul> </li> </ul>
<p><b>5. Can the resident undress and dress themselves before and after toileting?</b></p> <p><input type="checkbox"/> Yes, independently <input type="checkbox"/> Sometimes <input type="checkbox"/> No, requires supervision <input type="checkbox"/> No, requires physical assistance <input type="checkbox"/> No, requires lifting equipment <input type="checkbox"/> N/A, unable to use toilet</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Ensure that the resident has clothing that is easy to manage (i.e. elastic waisted pants with no zips). <input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to adjust their own clothing.</p>

## SECTION A: Toileting ability, Cognitive skills & Mobility (*continued*)

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)
<p>6. Can the resident use toilet paper and wipe themselves?</p> <p><input type="checkbox"/> Yes, independently</p> <p><input type="checkbox"/> Sometimes</p> <p><input type="checkbox"/> No, requires supervision</p> <p><input type="checkbox"/> No, requires physical assistance</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to get toilet paper ready and to use it.</p> <p><input type="checkbox"/> Supervise    <input type="checkbox"/> Prompt    <input type="checkbox"/> Physically assist the resident to wash their hands at toilet completion.</p>
<p>7. Does the resident co-operate with staff when they assist with toileting or changing?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> Sometimes</p> <p><input type="checkbox"/> No</p>	<p><b>If sometimes or no:</b></p> <p>■ <b>ask the RN, Continence Nurse or GP about the care required and refer to resident's behavioural management plan.</b></p>
<p>8. Does the resident experience pain that restricts their toileting ability?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> Sometimes</p> <p><input type="checkbox"/> No</p>	<p><b>If sometimes or yes:</b></p> <p><input type="checkbox"/> Check that the resident is getting their pain medication as ordered</p> <p><input type="checkbox"/> Limit the resident's movement until pain subsides</p> <p><input type="checkbox"/> Offer bedpans, urinals and/or pads</p> <p>■ <i>If the resident is unable to verbally communicate, search for cues that indicate pain. (List possible cues) _____</i></p> <p>_____</p>

## SECTION B: Bladder & Bowel pattern

Refer to 3 day bladder chart and 7 day bowel chart to complete questions

### Best practice recommendations

- Aim for the resident to be continent and to void 4-6 times a day and no more than 2 times at night
- Aim for the resident to have a regular (at least 3 per week) continent, soft formed stool (i.e. Bristol Stool type 3 or 4 that is easy to pass)
- If the resident has incontinence, aim for them to feel clean and dry with changes of pads soon after each episode
- Assess residents risk for falling if they need to go to the toilet at night

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)
<p>9. During the day, how many times does the resident need to pass urine/go to the toilet on average (from 7am-7pm)?</p> <p><input type="checkbox"/> Less than 3 times</p> <p><input type="checkbox"/> 4 - 6 times (normal)</p> <p><input type="checkbox"/> More than 6 times</p>	<p>■ <i>If less than 3 times, ask the RN, Continence Nurse or GP about the care required.</i></p> <p>■ <i>If more than 6 times, ask the RN, Continence Nurse or GP about the care required.</i></p>
<p>10. During the night, how many times does the resident need to pass urine/go to the toilet on average (from 7pm-7am)?</p> <p><input type="checkbox"/> None</p> <p><input type="checkbox"/> Once</p> <p><input type="checkbox"/> Two or more times</p>	<p><b>If once or more:</b></p> <p>■ <i>Ensure call bell is within reach.</i></p> <p>■ <i>Turn night light on.</i></p> <p>■ <i>Ensure commode/pan/toilet is near the bed.</i></p> <p>■ <i>Turn sensor/s on.</i></p> <p>■ <i>If resident is awake, offer toileting assistance.</i></p> <p>■ <i>If the resident passes urine two or more times during the night, ask the RN, Continence Nurse or GP about the care required.</i></p>

## SECTION B: Bladder & Bowel pattern (continued)

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)
<p><b>11.</b> Does the resident experience urine leakage during the day?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, how often?</p> <p><input type="checkbox"/> Once every few days <input type="checkbox"/> Once a day <input type="checkbox"/> Several times a day <input type="checkbox"/> Most or every time</p>	<p><b>If yes to urine leakage during the day:</b></p> <p><input type="checkbox"/> Develop and put in place <b>an individualised toileting program</b></p> <p><input type="checkbox"/> Develop and put in place <b>a fixed time toileting program</b></p> <p><input type="checkbox"/> Develop and put in place <b>a pad check and change program</b></p>
<p><b>12.</b> Does the resident experience urine leakage during the night?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If yes, how often?</p> <p><input type="checkbox"/> Once every few nights <input type="checkbox"/> Once a night <input type="checkbox"/> Several times a night <input type="checkbox"/> Most or every time</p>	<p><b>If yes to urine leakage during the night:</b></p> <p><input type="checkbox"/> Develop and put in place <b>an individualised toileting program</b></p> <p><input type="checkbox"/> Develop and put in place <b>a fixed time toileting program</b></p> <p><input type="checkbox"/> Develop and put in place <b>a pad check and change program</b></p>
<p><b>13.</b> Does the resident have a predictable pattern of passing urine (including urine leakage) ?</p> <p>a) During the day?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>b) During the night?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p><b>If yes:</b></p> <p><input type="checkbox"/> Refer to the 3 day bladder chart and use the grid below to mark the times for an individualised toileting program based on the resident's pattern.</p> <p><b>If no:</b></p> <p><input type="checkbox"/> Use the grid below to mark the times for <b>a fixed time toileting program</b> (i.e. at least every 4 - 6 hours during the day)</p> <p><input type="checkbox"/> Use the grid below to mark the times for <b>a pad check and change program</b> (i.e. at least every 4 - 6 hours during the day)</p>

Toileting / pad check and change grid (please tick)

	mid-night	1 am	2 am	3 am	4 am	5 am	6 am	7 am	8 am	9 am	10 am	11 am	12 noon	1 pm	2 pm	3 pm	4 pm	5 pm	6 pm	7 pm	8 pm	9 pm	10 pm	11 pm
Toileting times																								
Pad check & change times																								

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)
<p><b>14.</b> Does the need to pass urine or incontinence at night make it difficult for the resident to go back to sleep?</p> <p><input type="checkbox"/> N/A <input type="checkbox"/> No <input type="checkbox"/> Sometimes <input type="checkbox"/> Yes</p>	<p><b>If sometimes or yes:</b></p> <p><input type="checkbox"/> Place a commode beside the resident's bed.</p> <p><input type="checkbox"/> Offer the resident a bedpan or urinal.</p> <p><input type="checkbox"/> Identify and put in place individualised strategies to help the resident to return to sleep</p>

## SECTION B: Bladder & Bowel pattern (continued)

<b>Assessment Cues</b> <i>(tick appropriate response)</i>	<b>Care Options</b> <i>(tick appropriate care option)</i>
<p><b>15.</b> Does the resident have a urinary catheter in place?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p><i>If yes, is the catheter</i></p> <p><input type="checkbox"/> Suprapubic? <input type="checkbox"/> Urethral?</p>	<p><b>If yes, ask the RN, Continence Nurse or GP about the care required and refer to resident's catheter care plan.</b></p> <p><input type="checkbox"/> No assistance required to empty catheter bag <input type="checkbox"/> Supervise the resident to empty catheter bag <input type="checkbox"/> Physically assist the resident to empty catheter bag</p>
<p><b>16.</b> How often does the resident normally use their bowels?</p> <p><input type="checkbox"/> Daily to second daily <input type="checkbox"/> Less than 3 times per week</p>	<p><b>If less than 3 times per week, or if yes to question 17: discuss the following options with RN, Continence Nurse or GP</b></p> <p><input type="checkbox"/> Increase fluid to _____ a day. <input type="checkbox"/> Increase fibre by _____. <input type="checkbox"/> Increase mobility (refer to mobility / activity care plan). <input type="checkbox"/> Medication (as determined by RN, Continence Nurse or GP). <input type="checkbox"/> Refer for further investigation (i.e. Abdominal X-Ray, GUT motility study). <input type="checkbox"/> Monitor bowel elimination frequency and stool consistency. <input type="checkbox"/> Prompt / supervise / assist resident to the toilet at _____ each day. <input type="checkbox"/> Encourage the resident to respond to the urge to use their bowels. <input type="checkbox"/> Supervise / prompt / assist the resident to sit on the toilet and rest their elbows on their knees with their feet flat on the floor or stool to facilitate bowel emptying.</p>
<p><b>17.</b> In the past two weeks has the resident leaked, or had accidents or lost control with stool/bowel motion?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p><b>If yes to any symptom, ask the RN, Continence Nurse or GP about the care required.</b></p>
<p><b>18.</b> Has the resident got any of the following symptoms when they use their bowels?</p> <p><input type="checkbox"/> Pain and discomfort <input type="checkbox"/> Straining <input type="checkbox"/> Bleeding <input type="checkbox"/> Hard, dry motions <input type="checkbox"/> Very fluid bowel motions</p>	<p><b>If yes to any symptom, ask the RN, Continence Nurse or GP about the care required.</b></p>
<p><b>19.</b> Has the resident had a urine test (dipstick) done in the past 28 days?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No <i>(this needs to be done)</i></p> <p>pH _____ SG _____</p> <p>Blood <input type="checkbox"/> Yes <input type="checkbox"/> No Nitrites <input type="checkbox"/> Yes <input type="checkbox"/> No Leukocytes <input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p><b>If the resident's urine dip-stick shows blood or nitrites or leukocytes or has a pH equal to 8 or above, ask the RN, Continence Nurse or GP about the care required.</b></p>

**Further comments and/or observations** \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

## SECTION C: Nutrition (fluid & diet)

### Best practice recommendations

- Aim for the resident to have 5-10 cups of fluid per day unless otherwise indicated & limit known bladder irritants (i.e. coffee, alcohol)
- Aim for the resident to have 30gm of dietary fibre per day unless otherwise indicated

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)
<p><b>20.</b> Does the resident drink an adequate amount of fluid to maintain hydration and healthy bladder and bowel function? (Refer to 3-day bladder chart and check colour of urine)</p> <p><input type="checkbox"/> Yes  <input type="checkbox"/> Sometimes  <input type="checkbox"/> No</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Encourage resident to drink _____ cups of _____ per day.  <input type="checkbox"/> Monitor and report underhydration (under 5 cups per day &amp; dark coloured urine).  <input type="checkbox"/> Monitor and report excessive drinking (over 10 cups per day).  <input type="checkbox"/> Monitor urine colour (if concerned about dehydration).</p>
<p><b>21.</b> Does the resident eat an adequate amount of food with fibrous content to maintain healthy bladder and bowel function? (Refer to nutritional assessment)</p> <p><input type="checkbox"/> Yes  <input type="checkbox"/> Sometimes  <input type="checkbox"/> No</p>	<p><b>If sometimes or no:</b></p> <p><input type="checkbox"/> Refer to resident's nutritional care plan.  <input type="checkbox"/> Encourage the resident to eat cereals, vegetables and fruit regularly.  <input type="checkbox"/> Offer small snacks regularly.  <input type="checkbox"/> Refer to nutritional/swallowing assessment and care plan.  <input type="checkbox"/> Ensure dentures are in at meal times and that they fit.</p>

## SECTION D: Skin care

### Best practice recommendations

- Aim for the resident's skin to remain intact and free from rashes, excoriation and pressure ulcers

Assessment Cues (tick appropriate response)	Care Options (tick appropriate care option)															
<p><b>22.</b> Does the resident's skin around their buttocks, groin and perineal area appear to:</p> <p><input type="checkbox"/> Be very thin or fragile  <input type="checkbox"/> Be reddened  <input type="checkbox"/> Be unusually pale  <input type="checkbox"/> Have a discharge  <input type="checkbox"/> Have a foul or bad smell  <input type="checkbox"/> Be broken, have a rash or have lumps and blotches  <input type="checkbox"/> Other (specify) _____</p>	<p><b>If yes to any skin abnormalities, consider the general care options below and ask the RN, Continence Nurse and/or GP about the care required.</b></p> <p><input type="checkbox"/> Change wet pads, linen and clothing soon after incontinent episodes.  <input type="checkbox"/> Use the wetness indicators on disposable continence pads as a guide to know when to change the pad.  <input type="checkbox"/> Use a non-irritating, pH neutral product for washing the skin after each incontinent episode.  <input type="checkbox"/> Use a soft toilet paper or 'wet ones' for wiping if skin is very sensitive.  <input type="checkbox"/> Apply a barrier cream for protection against exposure to urine and/or faeces</p>															
<p><b>23.</b> Is the resident currently using a continence product to contain their incontinence?</p> <p><input type="checkbox"/> Yes – during day and night  <input type="checkbox"/> Yes – during day only  <input type="checkbox"/> Yes – during night only  <input type="checkbox"/> No</p>	<p><b>If yes, select a product that is able to absorb the volume of urine loss and/or contain the faecal matter and is comfortable for the resident.</b></p> <p><b>Select from the following options:</b></p> <table> <thead> <tr> <th></th> <th>Day</th> <th>Night</th> </tr> </thead> <tbody> <tr> <td><input type="checkbox"/> Disposable pad</td> <td><input type="checkbox"/> (type) _____</td> <td><input type="checkbox"/> (type) _____</td> </tr> <tr> <td><input type="checkbox"/> Washable pad/pant</td> <td><input type="checkbox"/> (type) _____</td> <td><input type="checkbox"/> (type) _____</td> </tr> <tr> <td><input type="checkbox"/> Commode</td> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> <tr> <td><input type="checkbox"/> Condom drainage</td> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> </tbody> </table>		Day	Night	<input type="checkbox"/> Disposable pad	<input type="checkbox"/> (type) _____	<input type="checkbox"/> (type) _____	<input type="checkbox"/> Washable pad/pant	<input type="checkbox"/> (type) _____	<input type="checkbox"/> (type) _____	<input type="checkbox"/> Commode	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> Condom drainage	<input type="checkbox"/>	<input type="checkbox"/>
	Day	Night														
<input type="checkbox"/> Disposable pad	<input type="checkbox"/> (type) _____	<input type="checkbox"/> (type) _____														
<input type="checkbox"/> Washable pad/pant	<input type="checkbox"/> (type) _____	<input type="checkbox"/> (type) _____														
<input type="checkbox"/> Commode	<input type="checkbox"/>	<input type="checkbox"/>														
<input type="checkbox"/> Condom drainage	<input type="checkbox"/>	<input type="checkbox"/>														

## SECTION E: Medical

*(This section may need to be completed by an RN, Continence Nurse or GP)*

24. Please indicate whether or not the resident has any of the following potentially reversible causes of incontinence

- |   |  |                                       |   |  |
|---|--|---------------------------------------|---|--|
| <input type="checkbox"/> Delirium           | <input type="checkbox"/> Bladder infection | <input type="checkbox"/> Constipation | <input type="checkbox"/> Irritable bowel syndrome | <input type="checkbox"/> Medication    |
| <input type="checkbox"/> Atrophic vaginitis | <input type="checkbox"/> Unstable diabetes | <input type="checkbox"/> Depression   | <input type="checkbox"/> Enlarged prostate        | <input type="checkbox"/> Restraint use |

25. If yes to any of the conditions, could this condition be causing the residents incontinence?

- No
- Yes (please list) \_\_\_\_\_

26. Is there any potential to treat or improve the residents' condition with any of the following options

- |   |   |   |   |
|---|---|---|---|
| <input type="checkbox"/> Medication                               | <input type="checkbox"/> Bladder training | <input type="checkbox"/> Electrical stimulation | <input type="checkbox"/> Pelvic floor muscle training program |
| <input type="checkbox"/> Referral to: <input type="checkbox"/> GP | <input type="checkbox"/> Continence Nurse | <input type="checkbox"/> Urologist              | <input type="checkbox"/> Geriatrician                         |
|   | <input type="checkbox"/> Gynaecologist    | <input type="checkbox"/> Physiotherapist        |   |

## SECTION F: Resident Perspectives

*(This section should be completed in conjunction with residents and/or their family members)*

### Best practice recommendations

- Ensure residents and families are given information about healthy bladder and bowel habits
- If the resident has a low affect and/or is bothered by their symptoms discuss this with an RN or the GP
- If a continence product is used, ensure that it fits the resident, absorbs any incontinence, and protects the resident's underwear and outer clothing

### Bladder Function

27. If you are experiencing a bladder problem, what kind of assistance would you prefer? (may tick more than one)

- No assistance
- To be assisted to go to the toilet at \_\_\_\_\_
- To wear pads during the day
- To wear pads during the night
- To be seen by a specialist for further investigation
- Other \_\_\_\_\_

### Bowel Function

28. If you are experiencing a bowel problem, what kind of assistance would you prefer? (may tick more than one)

- No assistance
- To be assisted to go to the toilet at \_\_\_\_\_
- To wear pads during the day
- To wear pads during the night
- To have a laxative
- To be seen by a specialist for further investigation
- Other \_\_\_\_\_

29. If you are experiencing a bladder problem, how much of a problem is this for you?

- No problem
- A bit of a problem
- Quite a problem
- Severe problem

30. If you are experiencing a bowel problem, how much of a problem is this for you?

- No problem
- A bit of a problem
- Quite a problem
- Severe problem

31. If you are wearing a continence product, does it keep you dry and comfortable?  N/A  Yes  No

If no, would you like to consider other options?  Yes  No

**Further comments and/or observations** \_\_\_\_\_

<p><b>Staff member completing assessment</b></p> <p>Name _____</p> <p>Signature _____</p> <p>Designation _____ Date _____</p>	<p><b>Staff member endorsing this assessment</b></p> <p>Name _____</p> <p>Signature _____</p> <p>Designation _____ Date _____</p>	<p><b>Care plan discussed with and agreed to by family</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>Family/Other-Name _____</p> <p>Signature _____</p> <p>Relationship _____ Date _____</p>
---	---	---

# Continence Care Summary

**1. Is the resident:**

Incontinent of urine  Yes  No

Incontinent of faeces  Yes  No

**3. Behaviours that indicate need to toilet**

Restless  Wandering

Pulls at clothes  Other

**2. What level of assistance is required to support toileting**

N/A, unable to use toilet

No assistance required (is independent)

Requires supervision (i.e. prompting, reminding and directional support)

Requires physical assistance  One person assist  Two person assist

Lifting equipment  Other

**4. Resident's day time toileting / pad check & change program**

	7am	8am	9am	10am	11am	noon	1pm	2pm	3pm	4pm	5pm	6pm	7pm
Toileting times													
Pad check & change times													

**5. Resident's night time toileting / pad check & change program**

	7pm	8pm	9pm	10pm	11pm	midnight	1am	2am	3am	4am	5am	6am	7am
Toileting times													
Pad check & change times													

**6. Resident's preferences for continence care (if resident is able to indicate)**

**a) During the day**

- No assistance
- Assistance to go to the toilet at \_\_\_\_\_ (specify times)
- To wear pads (specify type) \_\_\_\_\_
- Other \_\_\_\_\_

**b) During the night**

- No assistance
- Assistance to go to the toilet at \_\_\_\_\_ (specify times)
- To wear pads (specify type) \_\_\_\_\_
- Other \_\_\_\_\_

**7. Individual requirements for regular bowel elimination**

- No additional requirements
- Encourage resident to sit on toilet for bowel action after breakfast each day
- Encourage additional dietary fibre (specify type) \_\_\_\_\_
- Encourage additional fluid (specify amount & type) \_\_\_\_\_
- Ensure laxative administration (specify) \_\_\_\_\_

**8. Individual requirements for skin care**

- No additional requirements
- Apply \_\_\_\_\_ cream after each pad change

**9. Other** \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_
